Almost all brands consider Bangladesh only for their basic and core styles production, we thought by offering fashion from Bangladesh at Bangladesh prices, can give us an edge in the business competition.

WHY BANGLADESH

Bangladesh is the world's second largest Ready-made Garment (RMG) exporter, just behind China. Country's 81% of exports come from the RMG sector, and the textile and Apparel sector contributes around 20% to Bangladesh's GDP. It employs around 20 million people in the country and is the major driving force of the country's economy. The biggest strength that Bangladesh has over its competitors is its cheap and vast workforce. The minimum wage in Bangladesh is lower than that in China, Cambodia, India, and Vietnam.
